July 7, 2026
Attn: Igor Korkin

Dear Igor,

On behalf of the Pass the SALT team, we want to thank you for participating in our 2026 edition. While it was a shame you couldn't join us in person in Lille, we appreciate you taking the time to send us a recorded presentation.

This letter confirms the details of your talk:

Talk Title: DesktopRanger Blocks Keystroke Spying: Hardening Windows Desktop Isolation

Event: Pass the SALT 2026

Date & Location: July 2, 2026 — Université Catholique de Lille, France

Format: Speaker presentation (Pre-recorded video)

Video Link: Available freely on the conference platform at
<https://passthesalt.ubicast.tv/videos/2026-desktopranger-blocks-keystroke-spying-hardening-windows-desktop-isolation/>

Pass the SALT is built around practical, open-source security, and your presentation on Windows desktop isolation and user input protection fit our program well.

In particular, thank you for sharing your open-source project, DesktopRanger (<https://github.com/IgorKorkin/DesktopRanger>), with the community. Sharing your research and prototype openly is exactly what the free software and security community relies on to move forward.

Thank you again for your contribution and for adapting to the circumstances. We wish you the best with your ongoing research, and hope to welcome you to Lille in person for a future edition.

Best regards,

The Pass the SALT Organizing Team
